VIDEOS THAT HAVE GONE VIRAL WITH OVER 200K VIEWS ON INSTAGRAM

VIDEOS:

Back in 2022, I made a series of six videos showcasing my sister, Vanita. The objective was to show a full figure who wears a UK size 14 dress more confidently. The videos were a huge hit, one going viral with over 3.6 million views. My followers want to see more diversity in terms of shape and ethnicity, as it's more inclusive.

3.6 million views [Meet Vanita: Style tips for a curvy figure \(part one\)](#)

Over 500k views for this simple styling video, its appeal? Many women have similar items in their wardrobe already:

Over 368k views which shows clearly how light and dark colours work effectively:

Over 234k views to show do's and don'ts of wearing stripes:

[Broad shoulders or fuller bust or both?](#)

WHITE COCO

In April 2024, I hosted an event at the White Coco boutique on King's Road for 40 women; sales were over £5,000. I delivered an engaging 35-minute presentation, unveiling the hottest colour palettes and style trends of the season; I guided guests through handpicked selections from White Coco's diverse collection, ensuring there was something for every woman, regardless of her shape, size, or budget.

From chic clothes to stunning accessories, and allowed fellow fashion lovers to try on and purchase pieces that resonate with their individual style.

A brand born in Paris with quality pieces made to last. I've hosted four events for this fabulous brand with a colour & style presentation for their and my VIP clients at the Notting Hill and Marylebone High Street boutiques. Following up with stories and feed content about their products leads to brand awareness, traffic to their online store, and a jump up sales at the events.

Client Testimonials

“

We have worked with Anita for the last few years when she joined us at our annual ladies' event for senior female executives at L.K. Bennett. She has been instrumental in helping some of our clients dress appropriately and professionally so they can feel confident in existing and applying for new roles. She gives them this confidence by arming them with a specific tool kit of colours and styles of clothes, which help them look professional. Our guests love her presentation style, pitch, and content; she delivers something different that goes down extraordinarily well. She is a pleasure to work with.

Jane Dessar, Managing Partner, Head of Retail, Consumer, Travel, Leisure & Hospitality Practice, Odgers Berndtson

“

Anita immediately puts you at ease with her warmth and kindness. I learnt so much from the session - the confidence I have gained from the knowledge about colour match, body shape and make-up to complement my skin tone is priceless.

Tania, 49

“

Thank you so much for a great workshop. I felt like I'd lost my way, but you've got me back on track and motivated. I'm looking forward to the freedom of having a well-thought-out wardrobe instead of gathering clothing items in a random way.

Katie, 49
